RESOLUTION 2010-2-5 (1)

Date: February 5, 2010
To: THA Board of Commissioners
From: Michael Mirra
Executive Director
Re: Revised FY 2010 Agency Budget

Background

Each year, the Housing Authority of the City of Tacoma, (THA) prepares an annual budget for its upcoming fiscal year. The Annual Budget reflects an estimate of expected revenues and expenditures for each of its major programs. It is also detailed by department, with the expectation that each Department Director will manage and control their department budget in accordance with Federal, State and Local regulations.

The original FY 2010 Budget was submitted and approved by the Board of Commissioners during the July 2009 Board of Commissioners meeting. Based on the transactions that were recorded during the first six months of the fiscal year and other changed circumstances, THA staff has determined that certain budget adjustments were needed. Accordingly, THA is proposing the FY 2010 budget be amended to reflect these changes.

The changes are not all-encompassing but reflect areas where significant deviations from the original budget projections have been noted. Where such deviations in line items or between departments were noted but no overall increase in total budget projections for the agency were expected, no budget revision is being proposed.

Total budgeted Operating Expenses increased by \$791,300 from \$43,598,651 to \$44,389,951 and budgeted Reserve Appropriations increased by \$881,709 from \$4,399,008 to \$5,280,717. Total budgeted Agency reserves (not including HAP) dropped from \$6,344,455 to \$5,467,248. The major areas identified for the revision are in Real Estate Management/Property Management (REM/PM) and Real Estate Development (RED).

In the REM budget, there are two significant revisions:

1. Total maintenance expenses are expected to be higher than originally projected, with the most significant change in maintenance contract expenses. This change resulted from

increased costs for landscaping, boiler replacement, carpet replacement, and an increase of overall unit repair due to deferred maintenance. The deferred maintenance was the direct result of allocating large portions of the CFP funds to the Salishan Development instead of maintaining the existing capital assets during the past few years.

2. A new budget line item for the REM budget is for the repair of a landslide area in Phase 1 of the Salishan Development which will be paid out of PH Reserves.

In the RED budget, there are four significant revisions:

1. The interest for the Salishan Area 3 Citibank Loan will be paid out of THA funds rather than being rolled back into the loan effective March 1st.
2. The developer fee for Salishan 4 was reduced by WSHFC due to decreased overall construction costs for the project.
3. Program funds budgeted for transfer to Salishan 5 for construction costs were not needed due to lower construction costs. These funds were reallocated for completion of Salishan Area 2B infrastructure, along with approximately \$200K additional program funds since THA was not awarded NSP2 funds.
4. We reduced our budgeted Program Income transfer to the Education Training Center, as we will not be able to move forward with that project during this fiscal year.

A more detailed breakdown and explanation of the all proposed budget revisions is detailed in Document B – FY 2010 Budget Revision – Increases/(Decreases).

This budget revision does not include any changes to HUD program income for the areas of Section 8 HAP/Administrative Fee or Public Housing Operating Subsidy. Based on approved appropriations there is a good possibility that we will receive higher HAP and Operating Subsidy funding levels than in 2009. As final numbers will not be provided until the end of February, and HUD needs to analyze the needs of all Housing Authorities, we are being conservative and not budgeting any increases.

Even though there is good possibility that Public Housing funding levels will increase, HUD has revised the 2010 funding formula by using rental incomes of June 2009 instead of using the inflated frozen 2004 levels used in the past. Since THA's June 2009 average rental income is considerably higher than the 2004 levels (from approximately \$140 to \$210), this increase is expected to decrease the Operating Subsidy significantly. Additionally, THA received funds for Salishan 4 this fiscal year for initial subsidy going back to September 2008 that were not included in the original budget, increasing the total budget projections. These two opposing effects on subsidy numbers are likely to balance out for the entire fiscal year and therefore no budget revision is being proposed.

Recommendation

Approve Resolution 2010-2-5 (1) to formally approve THA's Revised FY 2010 Budget.
